PROFESSIONAL SUMMARY

Information Technology major with hands-on experience in web development, software engineering, and AI-driven product design. Skilled in React, Next.js, Node.js, Python, TypeScript, MongoDB, and Git/GitHub, with internship experience across software and full-stack development. Passionate about building scalable applications, modern web systems, and technology products.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, SQL, HTML/CSS, JSON
- **Technologies/Frameworks:** React.js, Next.js, Node.js, Express.js, FastAPI, MongoDB, Firebase, REST APIs
- **Tools & DevOps:** Git, GitHub, Figma, VS Code
- **Core CS:** Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, Cloud Computing

EXPERIENCE

Full Stack Engineer Intern | DigiBrandX | Jan 26 – April 26

Developed scalable full-stack web solutions with emphasis on performance optimization.
Improved efficiency of image-heavy websites using advanced optimization and compression techniques.

Software Engineer Intern | SkillCraft Technology | Sep 2025 – Nov 2025

Contributed to software development tasks, programming workflows, and technical problem solving.
Gained hands-on experience in application development and engineering practices.

PROJECTS

Psyck-Q — AI-Enhanced Productivity & Mental Wellness Platform

Designed an AI-assisted platform integrating CBT-based journaling, habit tracking, behavioral insights, and productivity workflows with privacy-aware wellness sharing concepts.

NEIS — Next Generation Education Information System

Built an education information management platform focused on workflow organization, scalable system architecture, and educational data management.

Tech Stack: Next.js, React.js, Node.js, MongoDB

PY-Ticket — Ticket Management & Issue Tracking System

Developed a ticket management system supporting issue tracking, workflow handling, ticket creation, and status management.

Tech Stack: Python, Web Technologies

CERTIFICATIONS and CO-Curricular Activities

Harvard CS50P — Introduction to programming with Python

Founder of **Team Daedalus Lap** | web application development within a competitive student technology team.

SAKEC Creathon 2025

GDGC TechSprint 2025
